SUMMARY

Highly motivated Junior Python Developer with a strong foundation in building scalable web applications. Proven ability to write clean, efficient Python code and integrate backend systems with PostgreSQL databases. Eager to bring self-driven problem-solving skills to a dynamic development team.

TECHNICAL SKILLS

- Programming Languages: Python (Core & Advanced), Basic JavaScript
- Web Frameworks: Django, Flask
- Databases: PostgreSQL, SQLite, MySQL
- APIs: REST API Design & Integration (Django REST Framework)
- Tools & Version Control: Git, GitHub, Docker, Postman, Linux Command Line

EXPERIENCE

Junior Python Developer Intern | TechNova Solutions, Kochi

Jan 2024 - May 2024

- Developed and maintained 5+ RESTful APIs using Django REST Framework, improving data retrieval speed by 20%.
- Wrote complex raw SQL queries and optimized PostgreSQL database schemas for a customer management system.
- Collaborated with senior developers using Git branching strategies to merge code without conflicts.
- Participated in daily stand-ups and wrote unit tests, achieving 85% code coverage for new features.

PROJECTS

E-Commerce Backend API | Django, PostgreSQL, Redis

- Built a fully functional backend for an e-commerce platform with user authentication, product catalog, and cart management.
- Implemented JWT token authentication and role-based access control.

Data Pipeline Automation | Python, Pandas, SQLite

- Created a Python script that automated cleaning and transforming 10,000+ rows of messy sales data daily.
- Reduced manual data entry work by 4 hours per week for the marketing team.

EDUCATION

Bachelor of Technology in Computer Science

XYZ Institute of Technology, Thiruvananthapuram | 2020 - 2024

- CGPA: 8.5/10
