SUMMARY

Recent Computer Science graduate with a foundational understanding of programming. Strong interests in hardware troubleshooting, manual software testing, and learning new technologies. Looking for an entry-level role to grow my technical skills in a corporate environment.

TECHNICAL SKILLS

- Programming Languages: Python (Basic syntax), C++, Core Java
- Web Technologies: HTML, Basic CSS
- Tools & Software: MS Office (Excel, Word), JIRA, Postman (basic API testing), Git (basic commands)
- Operating Systems: Windows, Linux (basic commands)

EXPERIENCE

Quality Assurance Intern | TechSupport Solutions, Kochi

June 2023 - Dec 2023

- Manually tested web applications to identify UI bugs and logging errors.
- Wrote test cases in Excel and reported defects to the development team using JIRA.
- Assisted the IT team in setting up computers and troubleshooting network issues for 50+ employees.
- Gained basic exposure to how client-server architecture works.

PROJECTS

Simple Calculator App | Python

- Built a command-line calculator that performs basic arithmetic operations (add, subtract, multiply).
- Practiced using variables, loops, and conditional statements in Python.

Student Database | C++

- Created a console application to add, view, and delete student records.
- Used file handling in C++ to save data locally to a text file.

EDUCATION

Bachelor of Computer Applications (BCA)

ABC Arts & Science College, Kochi | 2020 - 2023

- Score: 72%
